

Interview with an Adventure Dog: WHO IS THAT DOG ?

BIO @ Scruffie: the Adventure Dog

Scruffie is a Pedigree adventure dog and vagabond. It is Unclear where he was born precisely but numerous theory's exist. We believe he is 12 Human Years old.

He first met Meena in a small village in Warwick in the United Kingdom in 2003 but was still a very small dog. We know that he came to England to have adventures and had come to Warwick Castle to become a knight. When he realised that this was not possible he joined Meena hoping for an English Adventure.

It was upon meeting Glenn in 2004 that this appetite for Grand adventures started as Glenn's many trips to the mountains, Forests and Continental Europe offered tremendous opportunities.

Scruffie then developed many Skills and abilities so that by 2007 he was joining Meena and Glenn in their International Adventures.

In 2012 Scruffie convinced Meena and Glenn that they should move to Australia as there were many leadership opportunities for Dogs.
