In which Craft is achieved

“Invasion of the SOCK MONKEYS ”

Local Scout hall invaded by Sock Monkeys

“Scruffie the Adventure Dog – Chief Monkey Coordinator, Master carpenter, Toolsmith, Seamster, Tailor, Hippie Tie Dyer...”

Scruffie is famous for his skills acquisition. So when he heard that his friend Tony planned a craft camp at the scout hall to build crafty items, he was very, very excited. - New Crafts means learning new Skills.

For weeks he planned his Tie Dyed T-Shirt Design - Its a Brighton Sea Scout Tradition to have a Tye Dyed camp T- Shirt and Scruffie knew everyone would be watching what new design he came up with.

But then it happened. - A bright light was seen around the clock tower and a strange noise was heard.....

An invasion of Monkeys - 36 LOUD and excitable Monkeys arrived, they had heard about the camp and wanted to take part, but the Noise and enthusiasm was too much and with all the heavy workshop Power tools the leaders couldn't run the event Safely unless everyone followed the Safety rules. A Disaster! And all the weeks of preparation would be wasted...What could everyone do..?

Luckily - Scruffie has learnt Expert negotiation and Conflict management at Leadership. He Quickly came up with a proposition. Each monkey would adopt a Scout, and in return the Scout would help decorate the Monkey, and make them a blanket. This seemed very Suitable and all the Monkeys completed the Safety questionnaire and behaved and started their crafts.

Scruffie saved the day - Again - ! Thanks Scruff
