"GILWEROO 2017" THE GREAT ADVENTURE!

"Scruffie The Gilweroo Chief Canine, Senior Traffic Control Commander, Leader in Charge of Camp Setup, and Grump Management, Camp organisation management consultant"

Scruffie is an Adventure dog, he loves adventures.

Gilweroo is concentrated adventure, a weekend of the best activities in scouting all occurring at one time and in one place. It like a MIX of ALL THE SCOUTING principles and Skills - rolled into one. Some say it's like a Medium Jamboree.... Scruffie has been before and had a great time...But he Knows that Adventures at this level don't come Easy. Sometimes the intensity of the adventure is overwhelming, so Many things to do. Putting up All the Tents, a Cooking and Dining area for 65 People, organising Hydration, Activities, meals for 52 Children, running a Canoe Base for 2000 visitors, Special Diets, Medicine Control, Transport, Arrival, Check in, Patrols and Tent assignments, the list is endless....and That's all before everyone arrives!! Once at Gilweroo, Scruffie had to support the Scouts, Patrol leaders, New starters, New leaders, run the competitions, do Face painting, There is a Lot of Human support needed for all attendees not everyone has Scruffies resilience and experience. What was Scruffie to Do.....He Called "Scruffie international" and asked for help. The Head of Consultancy sent him an Excellent PowerPoint. He Should leverage on the LEADERSHIP PRINCIPLES from his Leadership Program and utilise these. (The **SCOUT CORE PRINCIPLE: BE PREPARED** with his **LEADERSHIP PRINCIPLES OF: ATTENDANCE, PASSION, PARTICIPATION, ORGANISATION, COMMUNICATION and ENTHUSIASM.**) Scruffie would use PLANNING, ORGANISING & COMMUNICATING. He would lock down and prepare all the things ahead of time that he could. And the things that he could only deal /React to Later he would defer. Having segmented what he could plan & control and what would have to react to, he had a plan. He would need a Really good team with all the Right People doing All the Right Jobs to Make this all Happen!

- 150+ Scout Troops
- 52 Scouts from 1st/14th Brighton
- 2106 Scouts from all over Victoria
- 500 Adults
- 7 1st/14th Adult Leaders + 4 Youth Helpers
- 20 Tents
- 1 Adventure dog
- 10 Patrols

"GILWEROO 2017" PREPERATION & PACKING

Canine Operations Manager : Scruffies Weeks of Planning and Organising comes into Play in "Staging" - he would communicate and prepare all the events and equipment needed and brief the teams. This would allow everyone to plan and set expectations.

Thursday Night. Scruffie Assigns everyone to their Patrols. He spent many hours talking to "The Leadership" leaders to make sure that Youth leaders have an opportunity to lead and with Tony the Section Leader to make sure that everyone has a place with the right poeple and the right tent. Weeks of planning and preparation come into play.

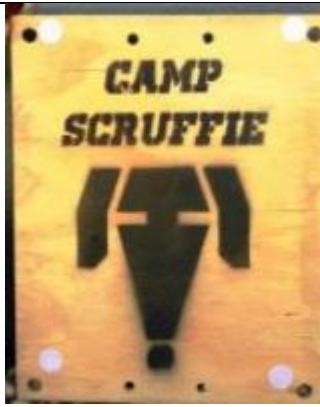

*Thanks Andrea for Scruffies new T-shirt in time for Gilweroo!
Very dapper and great replacement for his old workshirt.
He will be the Smartest dressed adventurer on sight.*

Scruffie is very focussed on loads being secured. Here he leads a Patrol to ensure everthing is safe and the people towing will have no issue.

NEXT Scruffie Checks the NEW Scruffies International Company car. He also checks Scruffies News Media promotion Boards are ready and hidden. This ensures no other drivers see them up close through a window.

“GILWEROO 2017” SETTING UP THE CAMP

...and Buidling dykes and
levies

Canine CAMP MANAGER: STARTUP – Before Scruffies Mates Arrived, the Camp needed to be Built and made ready. Scruffie Insisted his Adult helpers take leave and Be there really early. After his morning coffee scruffie joined them to Check progress....and offer helpful advice.

THE CAMP: The VANGUARD arrives - Tony and the leaders arrive and start to assemble Everything the team will need for a safe and happy camp. Thanks Tony!

Scruffie arrives at site. His Mates already have the Shelter out as well as many individual tents. Tony Makes everything safe- With His CHAINSAW. Scruffie Asked if Tony would let him use it, Tony Said No!

Scruffie checks lakeside, briefing the duck family to steer clear of human traffic; luckily he puts Leader Daniel in charge of Duck Safety

Then the skies open... Scruffie was very pleased that this happend early and not once his Scouting mates arrived.

Leader Steve is reminded why two pairs of shoes are needed at camp! Its a matter of remembering which ones are water shoes vs which ones are water proof!

Helen guessed right...

(Ed. She obviously attended Scruffies Scoutcraft training)

Luckily Nick is on hand to channel the stream through the campsite. Chief Engineer of Fluid Dynamics and Scruffies News media Video reporter. He USED intel from Dutch Scouts to help secure the camp from future flooding.

Continued :
NEXT - THE MASS ARRIVAL....

THE ARRIVAL : REGISTRATION and SCRUFFIES MATES JOIN HIM

CAMP SCRUFFIE's HSR and SHOP STEWARD: Maintaining the Health, Happiness and Wellbeing of over 50 youth with only one Dog and 4 Adults requires ORGANISING and PLANNING. Scruffie makes sure his CAMP has a check in. Each person can label their "ONE BAG" and has a Tent NUMBER ASSIGNED. They can check in, register Medicine with the LEADER and then they enter the camp and Say goodbye to Parents. This structure creates FLOW, Parents can quickly drop off, and move on without Parking and queuing issues, Scruffie Knows his mates are there and the leaders establish control for SCOUTSAFE. Scruffie knows all about WORKSAFE and has to treat his camp like a WORK SITE. This is not a problem as he is so organised, No one notices that SCOUTSAFE and WORKSAFE have all been integrated to Scouts, IT just seems fun, Interesting and Organised. This is cos Scruffie and TONY work so well together. *(ED. Scruffie wishes other workplaces would stop moaning about this topic and follow his example)*

Scruffies registration and Sign in Desk - Kailah has found her groove at front of House. "Welcome, Please put your bags here, get your bag tags from the desk & sign In Don't forget your reef knot so you don't lose your tag!"

Check in. Your Tent is number 16 on the left, please settle in. If you have medicine Please put it in Scruffies Secure storage and update the Clipboard for Leaders to monitor. *Ed. Scruffie requested that Tick and flea medicine is not brought to camp. its not funny)*

Hmm.. not so much 'One Bag'...Scruffie is very clear on his rules. Scouts must learn to pack their own bag, carry their own bag and **not** have lots of things hanging off the back. Its called the 'Scruffie ONE BAG POLICY'. *(ED. Note to Parents, Scruffie can be quite determined in enforcing this and so we request your help on this)*

Mind the guy ropes Kieran. I heard you started a competition with one of the leaders on who would have the most accidents and injuries.
(Ed. Kieren lost this competition as he only got sunburnt legs, The leader in question sprained an ankle and wobbled around the whole weekend. A clear winner!)

Zen Zone is tested for effectiveness. James has a great deal of experience in the Zone as a self adopting Zen Zoner. He has found his "Inner Watto" there..

Competition Boards are ready. A blank slate to be filled with Affirmations of Helpfulness, friendliness and Innovation....

Camp is all set. Everyone Settles in ready for an AWESOME ADVENTURE, but first we need a Safe camp and everyone needs to know what is happening and when ...

End of day Safety Briefing in preparation for the long day ahead, every Patrol has their own Space. Scruffie Leads and moderates the Safety Briefing, the Run book and gets in some guest speakers and a comedian to do "dad jokes"

SCRUFFIES NEWS[©]™

"The Adventure- DO MANY ACTIVITIES"

"GILWEROO 2017" DAY 2 ITS...ALL ABOUT the ACTIVITIES... and the PATROL

"Scruffie The Activity Master, Adventurous activities Mentor & Thought leader, Lonely Leader on the Edge.(ledge)

CANINE COMPETITION MASTER, YOUTH LEADERSHIP ADVISOR and ACTIVITIES LEADER: The Patrol leaders need to ensure that their teams get to the Activities on time and with the right Gear. Then they need to do as many SPARE TIME ACTIVITIES (STA's) as POSSIBLE and try and win the competition. A really Big Job _ Lucky Scruffie is there to advise and Support.

To be a Good Leader you need to have self discipline and self control you must know your limits and ensure your own hygiene's.

(Ed. See Herzberg Motivation-Hygiene Theory)

To Be a good Team member and make a contribution you need to have your own things together and not be an overhead to others. In both Cases Scruffie teaches Autonomy and self reliance.

We all want to help others, make a contribution, be part of something and get affirmation and recognition for it. This is a healthy part of the social Contract. But First Each person must get themselves together before sacrificing or over-accommodating others.

Scruffie Calls this "PUTTING YOUR OWN MASK ON FIRST"

(Ed. A reference to Aircraft safety policy for Parents)

Scruffie stresses these points in his Briefings, Whilst leaders must supply key information on the RUNBOOK - What is happening, when and what is needed to make it happen. Team members and Participants must buy-in and feedback and then self manage to ensure they meet the requirements and then help others meet the requirements. - It's how we work together.

It's this relationship of self-reliance, balanced with a social contribution that make DYNAMIC team member and leadership relationships work. When working well and with each member under self control they are ready to meet unforeseen problems, crisis or challenges. They have the time and energy to help others, drive collective success and look for opportunities to do extra and interesting things...

Fortunately Scruffie has spent the year working on this with his YOUTH LEADERSHIP TEAM, So he had 10 Youth Patrol Leaders and 10 APL's ready to step up and work with their teams to GET IT DONE! Gilweroo is ALL ABOUT the ACTIVITIES - And getting your team to them, taking part and getting on to the next one whilst keeping everyone fuelled, safe, Sane and happy along the way.

Its Dogs play! (Ed. Childsplay ?)

- Over 20 Main Activities and even more Spare Time Activities (STAs)
- A schedule to keep. A Map to follow.
- Challenge Valley to Conquer
- The winning Patrol completed over 51 ACTIVITIES – PHEW!
- LEADERSHIP and TEAM WORK.
- SELF CONTROL and MINDFULNESS.
- ENTHUSIASM and PASSION
- INNOVATION and HELPFULNESS.
- SKILLS and ABILITIES.
- PARTICIPATION and ATTENDANCE
- ORGANISING and COMMUNICATION

The Morning Briefing

Gilweroo is great activity as it brings together all the key parts of Scouting

Patrol system, Leadership, Outdoor Activities, Skills, Fun , Team work , Social skills and team autonomy

Each patrol is allocated their own List of Activities, they need to plan, Pack and need to find them and get there ON TIME , take part and move to the next.

Venturer Patrol is up Early. They will need a hearty breakfast for a full day on the lake helping supervise the canoeing for over 2000 scouts that will come through over the weekend!

Breakfast. Delicious! - Tony Got Muffins and Cross Aunts.

Is that Kieran putting on Suncream? Next we need to Find him a hat! Scruffie will get the Editor to supply one when he "misplaces" his.

All set to go. Sun us up and Bases are opening! - Teams are READY.

Gilweroo Veterans Know that the way to Succeed is start with a Hugely positive attitude. Take a Deep breath, Strike a pose. - Stand by and Execute

Collect the Firewood - We are not sure if the CFA will allow fires but planning ahead is a Scruffie Priority.

First Innovation goes up – every camp needs a swing. We ended up with 3 of these.

Some patrols take a little time to work out where to go. They Should have paid Attention at Scruffies navigation training Session earlier in the Term

But soon the activities are underway and the first Tickets are in.... The Leader board is up and scores are on the board. (Ed., Please don't sit on the tables)

Penguin Patrol is off to a good start with Angus Stepping up and leading this patrol. For every activity completed A slip is used to record this and a point earned in best patrol competition.

Its the cows. Always the cows. They just love following the scouts around. 1st 14th Brighton runs and hosts the canoeing base, Every year Tony improves the base and makes new ideas and innovations.

Bubble Soccer - Scruffie wants the COMMITTEE to buy this for the Troop. (Ed. Scruffie , this newsletter is not a place to advocate spending, you need to use the correct channels)

Climbing wall. Its a wall. And you climb it. Self explanatory really. (Ed . Less sarcasm please! Scruffie)

Zorbing. Scruffie really, really , really really , really , really , really , really , really , really , really.....Etc etc ... really , really really, Likes this ...!! (Ed Really ?.....REALLY really?)

An empty camp is a good sign...it means that all the Adventurers are out having adventures...Some heavily dehydrated Venturer Youth helpers come in to top up on Water and food.

The healing power of Self reflection. Just 3 Minutes in "Scruffies ZEN zone of quiet Contemplation" can turn the Most grumpiest of all, into the Happiest girl in Happy town who was just awarded first prize in a Happiness competition and got a Years supply of Happy Meals

News reporters check on Terry the First Aid Leader in charge at Gilweroo – good job there were not many incidentsIf there had been Scruffie would have helped,. He has Explorer level Emergencies.....

Oops spoke too soon ... Well done Imogen Just remember it was a Pre existing condition..... Dont worry, your dad has great Heathcare insurance and we live in Australia so we are covered.

Whilst some innovate, James works on his Prototype String creator recycling old drink bottles, Scruffie offers Specification and calibration information to optimise performance,..... (Ed.Its like a inovation incubator)

Others get creative. The great thing about scruffie is that is a Master of everything which means there is always some activity to bring out the skills and genius of his mates. (Ed. Scruffie was piloting facepaints and would love advice and feedback on ideas and improvements, Speak to Meena)

Innovation. What makes Australia great !
Netting frame, rope, A frame and a Water gun.
A spiders web of fun all day Long.

Scruffies Cousin from South Africa calls this "Houding" - It means to have A certain attitude, bearing or Posture that reflects everything you need to say with out saying it aloud in words. - A person Needs "houding"
Scruffies News photograher has captured it all. No Caption needed.

Beach Volley ball. Scruffie needed to keep clear, Some instincts to chase things never really leave you, no matter how long you've been gentrified.

Scruffie Inspects Tonys NEW Innovation for STAs (Spare time activities). Nets secured to the bank by ropes used to recycle the balls. Genius. Everywhere Scruffie goes he Inspires Innovation. *(Ed. Scruffie ! Tony was innovating before you were born!!!!)*

No Brakes, just a Safety Net, Exteme Sports are another one of Scruffies Hobbies. Its a slippery slope, you start with something tame and a before you know it you are hot dogging like Lone Wolf on a mountain Pass.

Meeting Scruffies High standards of Participation, Enthusiasm, Passion, Organisation, Planning and Positive Attitude can seem almost impossible. But when you do this is what Success looks like. Well done Girls One more for Gender equality.! This is why Scruffie Believes in You.

Team identity Helps - This patrol was called Frogs. So they select a nice Flower for the team tatoo. Sensible. A frog would raise many questions.

The Uniform of the confirmed adventurer, dressed in the latest fashion, Showing your actual experience not just your aspiration. Scruffie loves Sumo, Challenge Valley and all the other items that get you "back to earth" , "well grounded" and reconnecting with Nature.

You need to Fight the POWER! But dont be a Public Enemy - Pulling against an Elastic on a Slippery Slope to try and reach a prize that always seems just out of reach. Preparation for a life in Politics.!

Whales Again- there is a Pattern forming here..... Scruffie will have to Create a Special award for this patrol - Their team work is really good.

Crate Stacking	Team supporting....	add another	Till you fall...on Belay
			
Scruffie Inspects the Remote corners of the site		And the creative Centres.	
			
Scruffie is always looking for new talent to build his empire. He recently sought out and found some Swiss trained efficiency. Welcome Helen ! Thanks for Helping Steve Run an Industrial Camp kitchen with just two Staff.		Delcious - Scruffie brought in a Foreign Chef to help with the Special Diets, Here the GLUTEN AVOIDERS sample a delicious mexican Wrap. Vegetarians and other Special requirments are managed so that everyone can join in and feel normal even if their diets are weird. (Ed, Scruffie Coeliac Disease is not a choice, its a condition , this isnt Brighton High Street!)	
			
A	B	C	
How would you spend your Saturday night....			
A. Telling Ghost Stories??			
B. At the Disco??			
C. Watching a movie??			

End of Day two and everyone made it back to Camp safely and went to sleep. (Well Most of them)

What a day!

DAY 3
THE FINAL
COUNTDOWN
...and
Prizegiving**

"Scruffie The Prize Guard, T Shirt Wearer, Chief Judge and Jury, Life Skills coach, First Aider, Keen Observer of idiosyncrasies of life

PACKING, PRIZES and CLOSE DOWN : Unfortunately all adventures must come to an End!

But before they do, there is packing and Prizes. And even before all that the teams must awake and finish their activities for the day. The competition is on!

SCRUFFIE : Adventures are a Mad energy driven "Rollercoaster "

(Ed. Or a practical way to combine critical aspects of Life skills together in a Single enjoyable Outcome).

SCRUFFIE : An Adventure needs some of kind of focus, just come up with an Instinctual or emotional feeling and justify it later with explanations.

(Ed. Or you could create a destination or Objective to visualise the outcome and think about its key characteristics and measures, lay out a concept and a plan and execute)

SCRUFFIE : An Adventure is Best Shared with other like minded individuals, So just learn to Socialise and overwhelm them by force of personality and Mad social Skills.

(Ed. Or you need to learn to communicate and Negotiate to get everyone on board to the Outcome through measured conversation, planning and negotiation)

SCRUFFIE : An Adventure needs you to just Jump in and get on with it

(Ed. Or It has a time Sequence and Dependencies that can be planned and managed to ensure everything arrives on time. A Runbook)

.....Edited for Brevity.....

(ED. THE EDITOR HAD TO STEP IN HERE TO SHORTEN THE ADVENTURE DOG'S EDITORIALISING (THAT'S MY JOB) AS CLEARLY THERE 2 VERY DIFFERENT APPROACHES TO ADVENTURING HERE.....)

Scruffie Knows all about Adventure's and realises that the key to Success is Different points of View and Different Skill sets. Not everyone Has Scruffies bravado, Fame and popularity, energy, Enormous Self confidence and Devil May care Attitude which is why Scruffie Started his Consultancy company and Hired more sober, clinical and methodical people to support him (Ed. And edit his Newspaper.....)

And **That** is what the best thing about adventures is..... To combine all the different skills, abilities and Styles together in a collective outcome that is fun, challenging and rewarding.

Sunday Started with the TEAMS energetically awakening to meet the DAY. Breakfast, Activities, Tokens and the Final competition Scores Assessed and Final plans for the day made.

The Leaders Start to Shrink the Camp, tents come down, Bags are packed, and Morning tea and Lunch are served. The day ends with a MASSIVE FINAL PARADE and EVEN MORE MASSIVE Scruffie Prize giving.....

Manual Backups are essential. Each patrol can understand its agenda and build their Runbook. When to have lunch, what time to have morning tea ? When is the Last wet activity, what equipment do I need. Information leads to better team work. Each Patrol has a team RUNBOOK - The essential and fixed items - They can build their own Agenda mixing the fixed items with the Variable ones and have control and efficiency

The Voting system. Putin cannot Hack Scruffies systems. They are firewalled in the Public Domain. All the prizes in secure storage. Competition rules and objective on the board. Well regulated voting will avoid questionable outcomes later. The only im-Peaches Our winner will see will be in a Jar of Iced tea, the only br- exit will be the Brighton emergency exit at the Scout hall.
(Ed. Thats to many jokes Scruffie)

Team Talk - What we Whales do next ? Wallow around, look for Krill or Optimise their Spare time activities. This team knows its business,... You dont have to worry, They have a great leader with a great Team....

Jacob Shows off to Scruffie how well he has learnt lashings from Scruffie. Building the A frame for the Final leader Board. Awesome Job Jacob - You Impressed Scruffie.

Some innovations – bag carrying / delivering using a drag sled, Well played Lucas.. Planning a Polar expedition with Scruffie ?
(Ed. What ? When were you going to tell the editorial Staff ?)

Making String from Used water bottles. The winning Innovation. Future engineer and Inventor James talks with Scruffie about future TED TALKS, funding from venture capitalists and other Disruptor based innovator things. All this as his prototype is moved into full production.

🐼 Scruffies Weekend Tweets 🐼

(Ed. Scruffies News Media is Part of Scruffies International which includes a "dis- disruptor" division that innovates by looking for low tech solution to High tech problems. Scruffie Avoids Twitter flame wars with other celebrities by dominating the landscape with manual boards, limited characters and no direct messages. Scout Mates master this easily and soon its extremely popular)

TXT whats on your mind with Scruffies LOW TECH TWEETS

We are sugargliding to the top of the leaderboard.
(Ed. Sugarglider patrol takes a demanding lead in the competition)

Mexican Wraps here!
(Don't Tell trump!)
(Ed. Dinner is Served)

Take Cover the tents are coming down!
(Ed. All good things come to and end)

In many Ways Venturers are a great example to scouts and its good to have positive role models.....But tidyness is not an attribute that falls within this Area.

Activity based learnings mean that you learn as you do and as you have fun, with other people.....

Checking in with Bryan and the Official Gilweroo Admin team!

Checking how Sales are doing at the Gilweroo Tuck Shop

Scruffie Hates Lost property and is a Huge believer in Tags and Labels. He had labels made for everyone so they could track their gear. Here he gives sympathy to the Central Lost property with some team members

Scruffie is a Big fan of Volunteering. He Supports the CFA - Volunteer Fire Service. What a great bunch of guys. He teaches Fire Safety and Knows all the rules. He Expects Scouts to as well.

Scruffie also likes creativity and this comes on Many forms. Here aspiring Artists try out Scruffies new Face paints and capture Ideas and lesson Learned.

Some are very successful. Accentuating the characteristics of their Models.

Nice work on Mavi, Eva – Scruffie approves..Scruffie Is inspired to work out how to make temporary Tatoos.

The artists with their models. An excellent first attempt at Scruffies Face painting - many lessons were learned.

The Final Tents are coming down...The Girls and Boys Changing Tents....

Everyone is Tired so it many need a few more people than usual.....

Prizes are Sponsored by Scruffie's New Media - A wholly owned subsidiary of Scruffies International.
DOWN WITH FAKE NEWS!

Everyone has a Quiet minute of relaxation, Nick from Venturers takes centre stage...

We appear to have adopted a Scout – Not sure Tony will be okay with this Harry! Scruffie needs access to his care Monkey profile and needs him to check in properly

Hes even gate crashed our prize giving. He Didn't win anything cos he didn't PARTICIPATE. You need to ATTEND , Then PARTICIPATE, Be ENTHUSIASTIC and PASSIONATE. Even Scoutcraft level Scouts Know that.

DO you Hate FAKE NEWS ?

Do You Support and Consume New Media and Social media?

SCRUFFIES AMAZING PRIZEGIVING

Best Venturer _ arranged by Kieren, the best Venturer competition was a popularity contest with Scouts and Ventures voting - and Scruffie supplied the prize.

Best Venturer Patrol - It was a close thing. At times it looked like this team would come third out of 1.. But With a field of 1 Patrol there was no "REAL! competition," and so this team Swept in and Pushed all the other competitors aside winning first prize. Leader Nick said it was very close but they managed a last minute push and despite themselves, avoided last place.

Special Leadership Prize - Angus stood in at late notice, was extremely caring and patient - he did a great job. Scruffie created a one off prize to recognise the extra effort

			
Innovation -James - Future Engineer and Manufacturer, and the next Elon Musk..	Most Friendly - Eva - Eva Impressed scruffie as runner up in many categories - peoples Choice	Best team member - Toby had to step in to help and on his first Gilweroo - Scruff thinks he is a Star. And loves His Warpaint	
			
Persistance - Luca's first camping experience and we barly noticed. A natural.	Helpfulness - Lily is a star and always ready to help others..	Best Patrol Leaders RUNNERS UP- Lily And Lucas	Best PL – Remy - Remy did a Fantastic Job - Scruffie was impressed and thats not faint praise.

Gilweroo 2017 Draws to a close....

Scruffies GILWEROO CAMP OF 2017
