

SCRUFFIES NEWS[©]™

TERM 1 EVENT

Who needs \$100m to build a Mortal Engine – when Scruffie can teach you to build one for \$10!!!

And provide a 6 course self cooking Buffet!

"Scruffie the Adventure dog, Chief Challenger, Mortal Engine Engineer and Skilled Skills Master, Front Seat City Driver, James Cordon Bleu Chef, 1 Pan Menu master"

Scruffie is an Adventure dog.. HE LOVES TEACHING and in a Post-Apocalyptic world his skills would really come to bear! Scruffie gets his inspiration from many different places – this week it was from the 2018 Blockbuster movie Mortal Engines where cities ride on wheels! However in Scruffies more successful release he builds the REAL "Meals on Wheels!"

BUILD a PLATFORM on your TROLLEY for your WHOLE TEAM to SIT on , COOK a FULL MEAL whilst completing five CHALLENGES.

Build and Deploy your city Whilst cooking 5 Snacks and then Cook dinner.

It will be Chaos!unless you Delegate , create ROLES and Work as a Team!

- 24 Mortal Engine Engineers
- 6 MOBILE Mortal Engines
- 1 Super Engine Crafter (of course Scruffie!)
- 5 Single PAN Delicious SNACKS.
- 1 Breakup up DINNER "SNAGS COURSE"
- Delicious Chips and Drinks.(Ed. No Mess!!)

THE TASK:

- Arrive On TIME, Start on TIME.
- BUILD a SOLID PLATFORM to PULL your engine
- Add SEATS and FOOD TRANSPORTATION area.
- Then ADD A KITCHEN and GAS COOKER.
- LOAD your whole TEAM and circulate through 6 20 minute BASES

THANKS *

- Scruffie, Steve and Helen , Tony and Meena - Great program!
- James C, James P-(not Felix), and Sam W – the Youth Helpers - Making things easier and more challenging since 2016 :-)
- Tony! - So much equipment that makes this all possible - Thanks tony Hundreds of Hours of effort on making and maintaining the required equipment for us to enjoy our day safely - THANKS Tony !

THE DESIGN:

Scruffie has the BEST EXPERT Advisors, Each New Program needs to be challenging and Safe, He reaches out to MASTER CRAFTSMAN Tony to help make sure the DESIGN is RIGHT. Some nerdy guy in Glasses ruins the Photo Again (Ed. Yet again the photography team keeps getting SOME random stranger in key shots)

Ahhh! That's better. Focus where it Should be... A full Prototype will need to be Built based on this Mock up.. From Small acorns... Large Oaks will grow ...and then be knocked down for a Rich mans Table Sigh!

THE ARRIVAL:

Everyone Arrives on Time to Start, if you arrive late then you miss the briefing, and dont get a chance to work out your team and whats going down, So avoid this Disadvantage and arrive 10 mins Early :-)
Scruffies youth helpers come 1 hour early to help setup..

Which is why everything is laid out and Organised. A Sample Completed Prototype Sits alongside a DEMO rig. This way PEOPLE can VISUALISE the FINISHED product or Objective,.... or the FIRST and next Steps.. Progressive learning that suits many learning styles.
(Ed. Scruffie does a lot of researcch on how people learn so that the MAXIMUM amount of his Mates can get an opporunity)

Time for a quick blockbuster preview..A "secret Supplier" supplies a Clip from the Movie....

And the BUILD BEGINS>.....Hmm,.... are Cassowary's PATROL being a little too relaxed with their Engine – will it survive the Evenings challenges??

EVERYONE in OWLS has a Job to do.....

Some Great Delegation by Jess – who reviews the prototype with her fellow engineers . That Tripod is Key to the Design and needs to be Right.

The Prototype That Scruffies Team builtThis one has NO KITCHEN, but SEATING for 6 SCOUTS....

Kingfishers – Some very serious construction going on, They are methodical and very successful

Whilst the YOUTH HELPERS set the challenges up....

And then the YOUTH HELPERS get a little sidetracked....Some needs to call the Site foreman... (Ed. Scruffie and Tony are trying build SAFE Catapult canon, using Tubes... The Prototype is very popular)

OWLS are very Advanced and They Are ready to get their Flag flying...and their Engine to Take flight.....

SUCCESSFUL TESTINGKitchen and TEAM on Board....Owls about to do another test run...

Kingfishers..make progress

Luca gives his team a Thumbs up! Now to Test the Machines...

THE ACTION BEGINS

Is that Toby H??? - He will Throw the BALLS out to His Team....

Whilst below the Team Are ready to catch them.....Remember ...Whilst cooking the Snack..Crumpets anyone ?

Crate Stacking Whilst cookingA mini Wrap Pizza.....

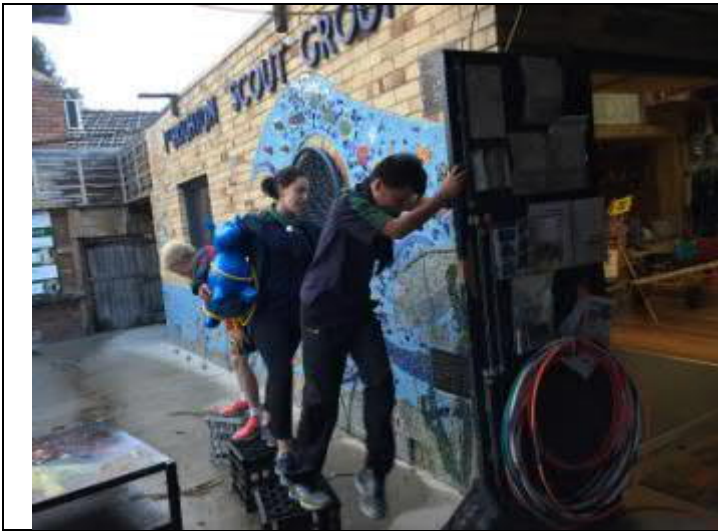

Or RESCUEing the COWS whilst cooking a Mini pancake with Syrup from the Maples...

REVERSE PICKUP Sticks.... Balnace all 20 poles... Whilst ..

Cooking HASHBROWNS with CHEESE..

COW rescue is always Popular.... Make sure that you dont touch the ground..... Its wet... and Hopefully an egg Sandwich is waiting.....

This Patrol feel that WRAP PIZZA is Sooooo 2018 ... This Year its more ... WRAP CALZONE>>>

Meanwhile at Gluten free pancake Central.....

James "teaches making pancakes"

Other patrols do some "inflight repairs" ... More lashing Practice is needed here.

Scruffie worries he might be overfeeding the Scouts. (Ed. and contributing to the Obesity crisis. .So many Tasty snacks in one 4 hour period... Hmm next program needs to be PALEO.....)

Scruffie is very happy with his first test of his NEW LAND BASE RAFTS.
Winter is coming....

And He wonders if he can fit a Fireplace.... OR a CANON!!!

(Ed. just NOT a Fire cannon)
